

Summary

Highly motivated and detail-oriented computer science student seeking a part-time RevOps Analyst position. Proven experience in data analysis, machine learning, and software development. Skilled in market research, data annotation, and CRM tools. Possesses strong analytical skills, excellent communication, and a data-driven mindset. Eager to contribute to a dynamic team and learn from industry experts.

Technical Skills

- **Programming Languages:** Python, C, C++, PostgreSQL, Java
- **Machine Learning and Data Analysis Libraries:** TensorFlow, PyTorch, Pandas, NumPy
- **Tools:** Git, Linux, Data Annotation Tools (developed in Python)
- **CRM Tools:** [Include specific CRM tools you have experience with, if applicable]

Professional Experience

Data Annotator

SAIPS (A Ford Motor Company Subsidiary), Tel Aviv

Dec 2021 – Oct 2022

- Developed and utilized data annotation tools in collaboration with developers to label data, enabling training of neural network models for autonomous vehicle systems.
- Gained hands-on experience with Python, data processing, and annotation for machine learning applications in a real-world R&D environment.

HR Officer (Captain)

Israel Defense Forces (IDF)

Jul 2018 – May 2021

- Led the HR department for a unit of 500 personnel, managing all HR planning, data handling, and administrative tasks.
- Supervised a team of 12, developing strong teamwork and leadership skills in a fast-paced and high-responsibility setting.

Education

B.Sc. in Computer Science

The Hebrew University of Jerusalem

Expected Graduation: 2026

Projects

Machine Learning Projects

Gained practical experience in machine learning using TensorFlow, PyTorch, Pandas, and NumPy through hands-on projects in the ML Methods and Introduction to Machine Learning courses.
